WORKSHOP

17.00 -18.30

During the Workshop all the scholars who attend the conference are given the opportunity to interact with the experts in the field of entertainment, performance industry and Made in Italy and to propose the application of their methods to facilitate the collection and sharing of data. The aim of the final debate is to discuss possible solutions to the problems raised, identifying new strategies and synergies of interdisciplinary and transnational collaboration to be implemented in the future. The debate will focus also on the training of young people in theatrical professions, on the productivity and employment opportunities in the craft sectors and in the field of computer graphics for multimedia creations.

The following experts will be present at the debate:

Simone Bessi, Sartoria cineteatrale *Annamode costumes* e Fondazione *Annamode*

Silvia Cabasino, Attività Culturali e Internazionali & Centro Studi e Documentazione del Teatro di Roma

Valeria Gaveglia, Stageur presso Associazione Teatro di Roma
